#### SERVICEMASTER — GV-094

The ultimate design for the professional serviceman. Lightweight, yet very rugged, the **Service-master** is molded of ABS Thermo Plastic. It has two locks recessed into the frame to prevent damage—a deluxe feature found only in a Knickerbocker case. The base has two sections, one  $2\frac{7}{8}$ " x 18", the other  $9\frac{1}{2}$ " x 18". The case accommodates two interchangeable pallets and offers a pocket that can be fully expanded when needed.

**Case Size:**  $12\frac{5}{8}$ " x 18" x 5" (inside dimension)  
Also available in 6" depth.

**Color:** Black only.

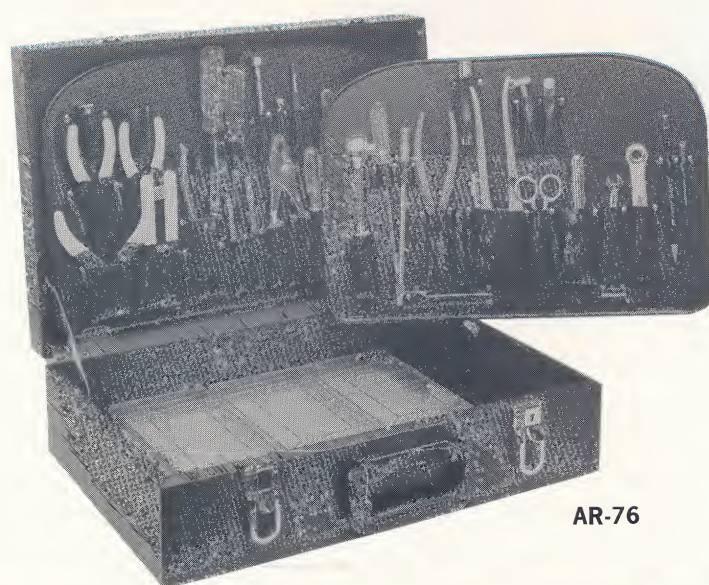

AR-4

#### AR-4 PALLET AND PARTS CASE

This compact, efficient unit has the large capacity needed for complete servicing. The case is made from plywood, covered with a heavy, excellent-wearing vinyl—resists scuffing and scratching. An adjustable partition in the base affords utmost flexibility for all needs.

**Case Size:**  $12\frac{1}{2}$ " x 18" x 4". (Inside dimension)

**Color:** Black only.

AR-76

#### AR-76 TOOL AND PARTS CASE

Designed with the engineer in mind, this case has two removable and interchangeable pallets that hold over 60 different tools. A full length expandable pocket holds the manuals and charts needed. If the pocket is not used, it will recess back into the lid, giving more room in the base. Plastic boxes of all sizes can be conveniently carried in the base.

**Case Size:**  $12\frac{1}{2}$ " x 18" x  $5\frac{1}{2}$ " (inside dimension)  
Also available in full 6" depth.

**Colors:** Black or Rustic Brown.

## ADJUST-A-CASE™

A NEW INNOVATION HOLDS ANY SIZE  
CIRCUIT BOARD SECURELY . . . ALL IN ONE CASE

This ingenious, new design will accommodate any type or size of printed circuit board used in today's electronic equipment. The Adjust-a-Case™ has interchangeable plastic partitions that will allow for expansion whenever needed. Neatly spaced grooves allow the boards to be placed closer together and still not touch each other, thereby using less space than other methods. With the boards securely in place and safe from damage and bad weather conditions, your service personnel will be able to complete their service calls with less delay and fewer difficulties. In producing the Adjust-a-Case™ we realize the high cost of printed circuit boards and have manufactured this fine case with utmost precision so that all components fit exactly to provide maximum protection for the contents of the case.

Representative samples illustrated at right.

## CUSTOM-DESIGNED CASES

Knickerbocker Case Corp. manufactures cases made-to-order for virtually every application and product. We will be happy to have our professional staff design a case to meet your special requirements.

Please write or call for our free catalog showing our full selection of leather and vinyl covered cases.

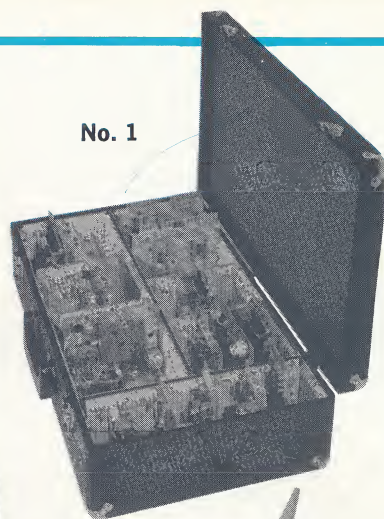

**Knickerbocker Case Corp.** Servicing the serviceman since 1900. For over 76 years, Knickerbocker Case Corp. has been building rugged, functional cases designed especially for the needs of the professional serviceman. Today we are still producing the same kind of practical efficient cases. Our modern facilities allow us to use the latest materials and techniques to continue to make the best cases available. Whether you need an old-fashioned tool case or our new Adjust-a-Case™ Knickerbocker has a case particularly suited for you.

### CLR-083 TOP GRAIN LEATHER CASE

This efficient case features a heavy duty lock in addition to two turnbuckles for additional support of the load. A bottom compartment holds three lidded trays, which are held in place by a cover with a turnbuckle. The trays have partitioned compartments of various sizes for parts, etc. The case is ruggedly made, with a "bumper edging" to insure long wear. It has a spacious tool compartment at the top for easy access.

**Case Size:**  $15\frac{1}{2} \times 10\frac{3}{4} \times 5\frac{5}{8}$ " (overall dimension)  
(Tool Compartment:  $14\frac{1}{4} \times 5\frac{1}{2} \times 4\frac{7}{8}$ ")

**Color:** Black only.

CLR-083

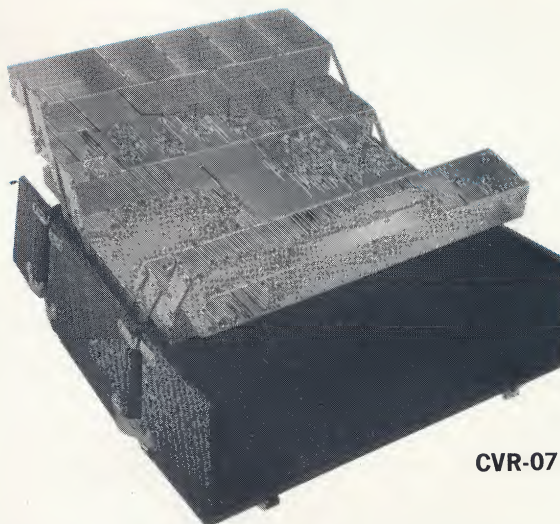

### CVR-075 MULTI-TRAY PARTS CASE

Here is a rugged case, constructed of 3-ply plywood with a lock-cornered frame. All outside corners are protected with nicked steel guards. It is covered with heavy, black Armorclad™ vinyl. It features 5 cantilevered trays made of 24-gauge aluminum, which lift out immediately for easy cleaning and convenience. A sturdy, well-built case that will serve you for years.

**Case Size:**  $16 \times 7 \times 8$ " (overall dimension)

#### CVR-086

Same case as above except aluminum cantilever trays are not removable, and the bottom of the case does not have an aluminum base. This is our Economy Model. Black only.

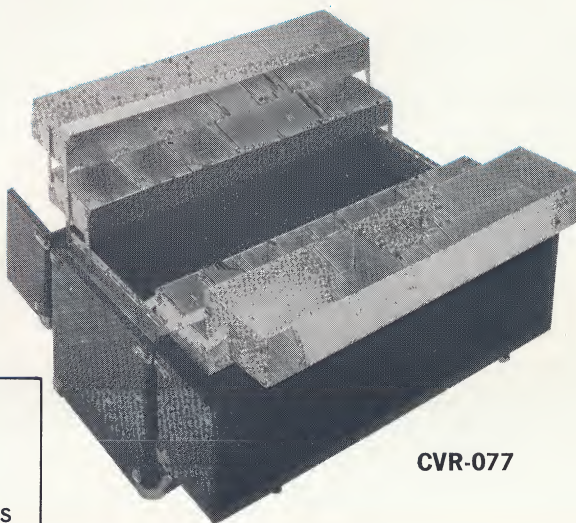

CVR-075

### CVR-077 MULTI-TRAY TOOL AND PARTS CASE

A sturdily constructed case for extra heavy-duty loads. It has four cantilevered trays constructed of 24-gauge aluminum. Covered with heavy Armorclad™ vinyl that will last for years under the toughest conditions. The bottom compartment is  $7\frac{1}{4}$ " deep and fully lined.

**Case Size:**  $19\frac{3}{4} \times 8\frac{1}{2} \times 12\frac{1}{4}$ " (overall dimension)

**Color:** Black only.
